WISHING ON A STAR LA NOTTE DI SAN LORENZO AUGUST 10th

The spectacular night "Notte di San Lorenzo" is traditionally considered as one of the most awaited evenings of the year for many spectators around the world. Apart from the Saint, **August 10th** is a special date that enables us to enjoy the spectacular phenomenon of what we commonly call "shooting stars". These so-called shooting stars are actually small meteors produced as the Earth passes through the Perseid meteor shower - particularly visible throughout the clear summer skies in Mediterranean latitudes.

SAN LORENZO MAGGIORE

THE SAINT, THE NEIGHBOURHOOD, THE CHURCH

SAN LORENZO THE SAINT - St. Lawrence may be considered as one of the most generously venerated martyrs of the Roman Catholic Church. San Lorenzo is recognised as the Patron saint of the poor and of cooks! But, legend tells that due to his conspiring to hide and protect the churches written documents San Lorenzo is also the patron saint of archivists and librarians...

SAN LORENZO THE NEIGHBOURHOOD - San Lorenzo's neighbourhood is situated in the historic centre - **Centro Storico di Napoli** and this "quartiere" is one of the most densely populated areas of Naples. The characteristic intersection of the road routes between VIA SAN GREGORIO ARMENO and VIA DEI TRIBUNALI, demonstrate the precise geographical centre of what was once the original ancient Greco-Roman City - Decumani.

A great selection of guided tours are available throughout the Centro Storico zone in all languages - Discover the Heart of Naples - and the **ancient Neapolis...**

SAN LORENZO THE CHURCH - Piazza San Gaetano - the historic centre of Naples - **Centro Storico di Napoli** - Decumani area is situated above a circuit of archaeological ruins of valuable interest. Discover the Underground Route: **LA NAPOLI SOTTERATA**

FERIAE AUGUSTI - FERRAGOSTO

ASSUMPTION OF MARY - HOLY DAY

The term **Ferragosto** derives from the Latin "Feriae Augusti" - then celebrated as a period of rest connected to agricultural work and yearly harvests. In those days, *Feriae Augusti* followed weeks (if not months) of physical hardship and were commonly known as Augustali. These so-called *Feriae* came long before the feast date established by the Roman Emperor *Ottaviano Augustus*. So, on one-side this holiday celebrates in a sacred fashion and on the other a typical *Ferragosto* break is frequently spent on a picnic, a beach, a mountain hike or even a long weekend. Still today, the religious character of this annual festivity is strongly felt throughout Italy and August 15th is traditionally dedicated to the Assumption of Mary - although its origins prove to date back to pre-Christian times as a Pagan celebration.

Popular festivities and special events take place in and around Naples - including numerous musical and theatrical shows and firework displays held throughout the Campania region. Yearly celebrative programmes are scheduled throughout the Phlegraean Fields (Campi Flegrei) such as the areas of Pozzuoli, Bacoli and Monte di Procida and reaching the coast of Amalfi - Salerno.

Banks, Post-Offices and Government Offices are usually closed for the day throughout Naples whilst a number of commercial businesses usually close just for the morning or afternoon. So, **Buon Ferragosto!**

My Country magazine is a project created back in 2013 aiming to promote Naples and the Campania region - giving a different view of this amazing territory - with a fine choice of Events, Exhibitions, Dates to remember, Traditions, local Customs and places to visit every month. We would like to thank all past and present sponsors who have funded and continue to fund this project. *My Country* is very selective regarding sponsors, considering useful info such as English-spoken, safe-parking, opening hours etc. obviously apart from various services and quality levels offered.

Even though *My Country* cannot accept any "legal" responsibility for transactions between readers and sponsors - we are more than interested in any feedback of your experiences - either positive or negative. Obviously this will enable us to keep that quality selection at the best level. So, do not hesitate to drop-us-a-line on: info@mycountrymagazine.com WORK IN PROGRESS Meanwhile we are working on the new website which will allow us to arrive to an even wider audience - apart from our faithful Facebook followers. Keep-tuned!

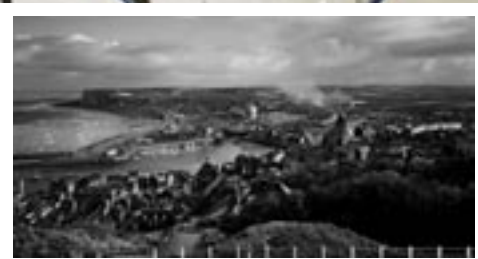

PHOTOGRAPHIC EXHIBITION

BORD DE MER**Gabriele Basilico****@ MAGAZZINI FOTOGRAFICI**

PALAZZO CARACCIOLO

D'AVELLINO

until NOVEMBER 3rd 2020

Magazzini Fotografici is a local regeneration project and independent association for social promotion created by *Yvonne De Rosa* aiming to popularize the art of photography. The building **Palazzo Caracciolo D'Avellino del Decumano superiore** is situated within the heart of Naples Centro Storico and recognised by **UNESCO** World Heritage. **Magazzini Fotografici** has hosted numerous international exhibitions with artists including: Letizia Battaglia, Boogie, Brian Griffin (those Thatcher years), Cristina Nunez', Silvia Plachy, and Chris Steele-Perkins amongst others. The site also operates with various events and activities such as presentations, debates and workshops with a small bookshop dedicated to photographic editions and self-publishing references.

The exhibition project currently on display, **Bord de Mer**, is the result of a commission originally received by *Gabriele Basilico* back in 1984/85 on behalf of the French government. He was invited to participate in the major project regarding French landscapes in the 1980's *Mission Photographique DATAR (Délégation à l'Aménagement du Territoire et à l'Action Régionale)* together with 20 internationally renowned photographers. During 1990 the volume **Bord de Mer** was created in which *Gabriele Basilico* depicts through photography the ports, beaches, coasts and cliffs overlooking the North Sea. The images were taken throughout three French regions, from Dunkirk Nord-Pas-de-Calais to Mont Saint Michel Normandy and passing through Picardy. *Gabriele Basilico* was born in Milan 1944 and may be considered as one of the greatest photographers and masters of Italian and European photography.
